Rizki Fernando

UI/UX Designer (Entry-Level)

📍 24 Years Old | 🎓 Final Semester – Bachelor's Degree in Software Engineering

About Me

I am an aspiring UI/UX Designer currently completing my final semester in Software Engineering (S1). Passionate about crafting intuitive, user-centered digital experiences, I am eager to grow in the design field and contribute to impactful projects. Though I'm just starting out, I bring strong attention to detail, a quick learning ability, and a deep curiosity for design thinking.

Looking For

I am seeking an opportunity where I can gain hands-on experience, strengthen my skills, and build a strong design portfolio. I'm especially interested in collaborating with teams that emphasize innovation, user empathy, and impactful design. I am open to freelance, internship, or junior-level positions where I can grow, contribute value, and develop professionally in a supportive environment.

Core Skills

- UI/UX Design
- Wireframing & Prototyping
- Responsive Web & Mobile Design
- Design Tools: Figma, Adobe XD, Canva
- Basic Front-end Understanding (HTML, CSS)

Soft Skills

- UI/UX Design
- Wireframing & Prototyping
- Responsive Web & Mobile Design
- Design Tools: Figma, Adobe XD, Canva
- Basic Front-end Understanding (HTML, React.Js, CSS)
